12" Precision Bend Rule

Easy and Accurate
To mark with a 0.5mm Mechanical Pencil: First, sharpen the pencil, then twist the lead once or twice in any one of the holes to give it an ultra fine point ready for marking.

To mark with a 0.5mm Mechanical Pencil:

To mark with a Wooden Pencil:

To mark with a Metal Scribe or Center Punch:

Any scribe or center punch sharp enough to fit through the holes can be used. Use finger pressure ONLY to mark a precisely located “dimple” in soft materials such as wood, paper, plastic, brass or aluminum. DO NOT damage your precision rule by pounding the point through the hole with a hammer.

INCRA RULES are available in many other popular styles and lengths.

Measuring:
Place the scale as shown for easy viewing and precise measurements.

Using the vertical scale:
Use the holes in the vertical scale to draw your mark parallel to the edge.

MARKING:
Place your mark in the hole or slot at the desired measurement.
